CAREER OBJECTIVE

Aspiring Software Developer with strong expertise in Java, Spring Boot, and RESTful API development. Passionate about building scalable, secure, and cloud-enabled enterprise applications in Agile environments, and eager to contribute to innovative technology solutions in a global consulting organization.

SKILLS

- **Programming :** Core Java, JavaScript, SQL
- **Web Technologies:** HTML, CSS, React, Node.js, Express.js, Spring Boot
- **Databases:** MySQL, Oracle(Basic), MongoDB
- **Tools & Frameworks:** Git, GitHub
- **Concepts:** SDLC, Restful API, MVC architecture, OOP, System design, DSA, AWS(basics), Agile, Unit Testing, Debugging

CERTIFICATES

- Html, CSS, Javascript, Java – Infosys Springboard
- SQL-IBM & HackerRank
- Artificial Intelligence – Accenture
- UiPath Automation Developer Associate Training – NASSCOM
- Oracle Certified Foundation Associate

ACHIEVEMENTS

- 1st and 3rd Prize in Paper Presentation at Veltech and Meenakshi Sundararajan
- 2nd Prize in Empower Idea Presentation at Anna university
- Secured top 100 position in TANCAM hackathon
- Participated in Intel Hackathon and IEEE Hackathon

INTERNSHIP

- Novitech R & D |Full stack Intern |

Mar 2025 – May 2025

Designed and implemented RESTful APIs using MVC architecture for scalable backend services. Optimized SQL queries and applied authentication and validation to enhance performance and security. Participated in Agile SDLC, unit testing, debugging, and Git-based version control. Collaborated with teams and implemented exception handling to improve system reliability.

EDUCATION

- Bachelor of Engineering in Computer Science and Engineering at Panimalar Engineering College, Chennai
2022 – 2026 | CGPA: 8.80/10 (till 7th sem)
- Higher Secondary (Class 12) at Velammal Matric Higher Secondary School
2021 | State Board | Score: 92%
- Secondary School (Class 10) at S.T Paul's Matric Higher Secondary School
2019 | State Board | Score: 92%

PROJECTS

Task Management Microservice System

- Developed a microservice-based Task Management System with independent User and Task services using Spring Boot and RESTful APIs.
- Implemented optimized CRUD operations with database isolation to ensure scalability, maintainability, and service independence
- Applied input validation, structured exception handling, and interservice communication to enhance system reliability and performance.
- Optimized application performance by refining SQL queries and improving service response time.

Tools:

- Java 8, Spring Boot, Spring Data JPA, MySQL, REST APIs, IntelliJ, Postman

Instagram Clone

- Designed and implemented a full-stack MERN application with secure authentication and RESTful API integration.
- Implemented JWT-based authentication, optimized database schema, and conducted debugging and performance testing.

Tools:

- React.js, Node.js, Express.js, MongoDB

Project Management System

- Developed a modular backend application using Java 8, Spring Boot, Spring Data JPA, and MySQL following layered architecture principles.
- Implemented RESTful APIs with optimized CRUD operations and normalized database schema to ensure scalability, maintainability, and performance.

Tools:

- Java, Spring Boot, Spring Data JPA, MySQL, IntelliJ, Postman
